

IDEAL AREA FOR BEAUTIFUL HOMES

THE Saanich Peninsula and Gulf Islands enjoy the most favorable climate on the Coast and the scenery cannot be surpassed. For those wishing to retire in delightful surroundings and get away from the extreme cold and heat of the prairies or too much wet weather of other sections of the mainland this area should be given serious consideration. Any reader on the "outside" wishing more information regarding any particular spot on the Saanich Peninsula or Gulf Islands, with a view to eventually coming here to live, is invited to write us. All information we can possibly give will be cheerfully furnished free of charge. Drop us a line today, don't put it off any longer. NORTH SAANICH SCHOOL SPORTS

The closing exercises and sports of the North Saanich School were held on the school grounds on the afternoon of Friday the 22nd. Interested parents and friends spent an enjoyable hour examining the hand-work and drawings on exhibition in the classrooms and from there they proceeded to the campus where amid keen but friendly rivalry 17 athletic events were run through.

At the conclusion of the sports the prizes were presented by Trustees Mrs. Clark and Messrs. McDonald and Calvert. Mrs. McLean, representing the Allies' Chapter, I.O.D.E., presented a book prize to Wilfred Hill for British History.

After the presentation of prizes all adjourned to the lawn where a sumptuous tea was provided by the parents and friends of the pupils.

The proceedings were brought to a close with a softball game between the boys of the school and the men of the North Saanich Social Club. All present voted the day a great success and it would be hard to select any individual for special credit but the thanks of the school is due to Mr. Nunn who acted as starter for the races, to Messrs. Calvert, McDonald, MacAulay and A. Nunn who acted as judges and to the Misses Brogan and Heritage who attended to securing the entries.

The Sidney Social Club will hold their usual weekly card party and social evening in the club rooms, Boncon Avenue, on Wednesday evening, July 4th, at 8.30 o'clock. All members and friends are cordially invited to attend.

CHAPLIN & OSWALD

NOW WORLD FAMOUS

Messrs. Chaplin & Oswald, the well-known breeders of registered Plymouth Rocks, at Vesuvius Bay, Salt Spring Island, are becoming known throughout the world for their famous birds. Enquiries and orders have been received from all over North America and many points in Europe. Last week they shipped to the Japanese Imperial Government eight of their famous Plymouth Rocks. Three years ago they possessed the leading egg-laying hen in the whole of Canada.

At the Wembley Exhibition, England, Canada was represented by their famous fowl, their exhibit being one of the finest in the entire British Empire. We believe Messrs. Chaplin & Oswald will be world authorities on poultry in due course and the residents of this area should feel proud that we possess such an enterprising poultry breeding firm.

MANY HEAR MRS. SMITH

An audience filling Matthews' Hall to capacity turned out last night to hear Mrs. Mary Ellen Smith and Mr. M. B. Jackson, Liberal candidate for the Islands riding.

In a splendid address Mrs. Smith reviewed conditions from the time the Liberal party came into power in 1916 to the close of the last session, showing how, in spite of many post war problems requiring the creation of new departments and increased expenditure, the Liberal government had gradually restored the credit of the province and had succeeded in establishing more friendly relations between capital and labor.

Dealing with the social legislation for which this province has given a lead to all Canada and which is largely due to Mrs. Smith's work, she reviewed in turn such measures as women's franchise, the minimum wage for women and girls, the workmen's compensation board, mothers' pensions, old age pensions and various other measures put into force by the Liberal government with no other motive than that the aged, the sick, and the orphaned or neglected child would receive the protection which was their right. Mrs. Smith reminded her audience that on all these measures she received the staunchest support from Mr. Jackson, who was then the representative of this riding, and asked the audience to support him again if they thought his attitude on such beneficial legislation was worthy of their support, if not, she remarked, "Do as you jolly well like."

Mrs. Smith also reminded her audience that in spite of all this expenditure Maclean's Magazine in a recent survey of Canada from a financial viewpoint gave just place to British Columbia.

Dealing with Labor Mrs. Smith pointed out that none other than Tom Moore, president of the Trades and Labor Council in Canada, went on record to say that in labor legislation British Columbia led all Canada if not the whole world.

Mr. M. B. Jackson confined his remarks largely to the economic or business standpoint. Describing the province as an incorporated body and the present government as its board of directors he compared conditions as they existed in 1916 when the bonds of this province were refused by all reputable bond houses of the province and had to be peddled in the United States, when there was not sufficient money in the provincial treasury to pay the next week's civil service salaries, to present-day conditions when bond issues of the province are completed for and snapped up inside of 24 hours.

Mr. Jackson also asked his audience (Continued on Page Four)

ANNUAL PICNIC AND SPORTS

The great day will soon be here! Next Monday, July 2nd, the North Saanich Social Club will hold its annual picnic and sports day at the Experimental Farm Park from early morning to late at night with every moment full to the brim with merriment and sport.

The first race will be a "Cup Point Event" and will be run at 11 o'clock promptly, so boys and girls be sure to be in plenty of time. Lunch will be served at 12 o'clock and the afternoon devoted to sports of all kinds. It will be fun for all and all for fun.

The great triangle tug of war will be pulled and as we understand the three teams have been in training for several weeks there is likely to be quite a struggle for the ownership of the Standard Steam Laundry's Silver Shield which is given for this event.

After supper the club's 16-piece band will render sweet music such as "In the Glomming, Oh My Darling," which is sure to appeal to both young and old and a very tired and happy throng will be seen wending its way homewards somewhere about midnight at the end of a perfect day.

The picnic which is for all club members and resident guests will be in the form of a basket picnic and those attending are asked to bring provisions for lunch and supper together with the necessary china and cutlery. The meals will be served on long tables under the trees. The club will provide coffee and tea. Ice cream, etc., will be on hand and Uncles George and John with their coconut shy will be much in evidence. Walk up ladies and gentlemen and try your luck.

Mr. Hadley asks parents not to allow the children to go swimming unless accompanied by an adult.

The evening's musical program consisted of songs by Miss Duncan, Mrs. Anderson, Mr. Lees and Mr. Lowe, while the choir gave a few glees. The stalls of candy, ice cream, home-cooking and miscellaneous articles were very capably managed by the members of the aid. Coffee and sandwiches and strawberries were served in the evening.

Lyness Camp on Salt Spring was invaded by a party of Sidneynites last Sunday. Capt. Byers, master mariner, took the party over in the morning returning in the evening after a wonderful day's outing. Tennis games with Ganges and Galiano players were very much enjoyed on Mr. Pollok's wonderful clay courts. Mr. Pollok has a new and better tennis court and in fact everything one could wish for in holiday time.

Gum-Dipped Tires Save You Money

Gum-Dipping is an exclusive Firestone process. It insulates and impregnates every fibre of every cord with rubber and prevents the cords from chafing against each other.

In ordinary tires these cords are uninsulated. In flexing they chafe against each other, causing internal heat and friction which softens the rubber, causing blowouts and tire failure.

These better tires cost you no more, yet they give thousands of extra miles. See your nearest Firestone Dealer.

The machine dug up a telephone cable

A ditching machine, operating in front of our Fraser exchange, South Vancouver, picked up and damaged a 400-pair underground telephone cable on June 18. The mishap affected 290 telephone lines, putting about 400 telephones out of commission.

Telephone connections with police and firemen were among those cut off. Knowing that it would take a day to make permanent repairs, our maintenance men, who lost no time in getting on the job, employed temporary measures to restore police and fire lines quickly.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series. "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre east of the Coast Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to the value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin, "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timberland, not exceeding 40 acres, and 8,000 feet per acre west of that may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and the land has been surveyed.

LEASES

For grazing and industrial purpose areas not exceeding 640 acres may be leased by any one person or company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts, and the range administered under the Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stockowners may form associations for range management. Free, or partially free, permits are issued to hunters, campers and travellers up to ten head.

THE W. A. JAMESON COFFEE CO. OF VICTORIA, B.C.

UPON the arteries of communication depend the
settlement and growth of the nation. First the
trails... then the rough oxcart ruts... the wagon roads
... the automobile highways.

The scattered population of British Columbia
has made the construction of roads between
centres a matter of vital importance, yet one
of almost insurmountable difficulties.

Mountain slides have to be blasted away...
clefts and chasms tresselled... rivers bridged!

With the opening of the Cariboo Highway
through Fraser Canyon in 1926, the last link
of British Columbia's great arterial highway
... a highway unexcelled the world over as an
engineering feat and one of unmatched scenic
beauty... was forged.

Eastern British Columbia greeted its western
brothers! Markets and railways were brought
closer to the farmer, the miner, the industrial-
ist. New fields for agricultural and trade
development were opened up.

For the ten years just past, an aggressive
highway programme has been carried out.
Thousands of miles of good roads and dozens
of sturdy bridges have been built.

Our roads system now totals 31,900 miles...
an increase of over 5,000 miles during the last
ten years. Of this mileage, 12,000 miles are
earth roads; 4,000 gravel roads; and 1,000

macadam, bituminous, concrete and cement
concrete. The 5,000 miles which were added to
our roads system include: 884 miles of main
trunk roads, 602 miles of lateral roads, 281
miles of industrial and mining roads, 1,133
miles of settlement and farm roads, and 2,000
miles of ordinary and mining trails.

During the years just before 1917, a large
number of bridges had been constructed in the
Province, nearly all of which were temporary
timber structures. Since 1917, the problem of
maintenance and renewal of these structures
has been a serious one, involving a large ex-
penditure, particularly between the years 1920
and 1927.

The policy has been to improve design of and
workmanship on temporary bridges and to
renew all the large bridges on main highways
over the principal rivers with concrete and steel.

Today, the valuation of our 63 miles of
bridges is nine million dollars.

This construction activity has distributed
wages and salaries over our whole Province
and has been a material aid in bringing about
the current period of British Columbia's
prosperity.

Read these announcements and understand your province's
progress... clip them out and send them to friends. If you
desire extra copies of these announcements a note to this
newspaper will bring them. Advise your Province!
